1. What Are Cookies?

Cookies are small text files stored on your device when you visit a website. They help the site function, understand how visitors use it, and improve your experience.

2. What Cookies We Use

We use the following categories of cookie:

Category	Purpose	Set by
Essential	Enable core site functionality (always on)	Wix
Analytics	Understand how visitors use the site	Google Analytics
Marketing	Measure marketing campaign performance	Meta / Facebook Pixel

Update this table to match the tools you actually run. Non-essential cookies (analytics, marketing) must not load until the visitor consents.

3. Your Consent and How to Manage Cookies

Essential cookies are always active because the site cannot function without them. Analytics and marketing cookies are only set after you accept them via our cookie banner. You can:

- Accept or reject non-essential cookies via our cookie banner
- Change or withdraw your choice at any time by reopening the cookie settings on our site
- Adjust your browser settings to block or delete cookies

Withdrawing consent will not affect any processing carried out before you withdrew it.

4. Third-Party Cookies

Some cookies are set by third-party services we use, including Google (Analytics) and Meta (Facebook Pixel), and our website host Wix. These providers process data under their own privacy and cookie policies, and some may process data outside the UK under appropriate safeguards.
